## Saturday Last Day To Purchase Tags Without Penalty

Tomorrow-Saturday, March 20—is the last day to purchase automobile tags without a penalty, according to officials in charge of tag sales at the Glades Office Building. Governor Burns has not signified any intention of extending the tag deadline beyond March 20th.

Mrs. Edwin Young, a deputy of Tax Collector Stetson O. Sproul and in charge of the Glades Office Building office for Mr. Sproul, pointed out that this year's sales are far beyond last year. Through March 16 there has been a total of 7,857 tags sold as compared with 6,632 last year.

Title business has been unusually good this year, Mrs. Young said. To date this year the office force has processed 1,088 titles as compared with 801 last year. This shows an increase of 287 titles.

The tag office will be open tomorrow—Saturday—until five o'clock for the late comers to purchase their tags, Mrs. Young said. The law does not call for the office to be open Saturday. It is just another of the little extra services that Mr. Sproul and his co-workers offer the taxpayers of the county.

## Four PHS Players Win Band Ratings

Miss Faye Harris, piano soloist, and a flute trio, composed of the Misses Ginger Willis, Kathy Boynton and Tammy Branch, received first-place, superior ratings at the District 8 contests for soloists and ensembles of the Pahokee High School Band held in the Band building Tuesday at 1:30 p. m.

The superior ratings make them eligible to participate in the State Contests (southern division), which will be held at the Miami Edison High School in Miami, May 6-8.

Maj. J. B. O'Neal of Fort Pierce, former director of the Dan McCarty High School Band, served as judge.

## J. T. Pickett Leaves For West Germany

Mrs. John T. Pickett had as guests Sunday her son and daughter-in-law, Mr. and Mrs. John T. Pickett, Jr., and daughters, Cindy, Donna Lynn, Elizabeth and Linda, of Fort Myers; also her daughter, Miss Bette Pickett of Delray Beach.

Following the visit, John T. Pickett, Jr., left Sunday evening for Frankfurt, Germany, where he will serve as an agent for the Pyramid Insurance Company. He expects to sell insurance in West Germany for the next two to four years. His wife and four daughters plan to leave the States on May 16 to join him in Germany, where they will make their home.

## Val Gabaldon Named To Honorary Group

Valentine (Val) Gabaldon was selected to become a member of the national honorary society for political science majors, Pi Sigma Alpha. The requirements for membership are to have at least a "B" average for all work attempted at the university and a "B" in the subject area of Political Science.

## Special Program Honor Miss Adams

Miss Mary Lee Adams, Florida Grand Assembly's grand representative to the State of North Carolina, Order of Rainbow for Girls, was honored by members of Pahokee Assembly 16 at the regular meeting held in the Masonic Temple Monday night with Worship Advisor Elizabeth Gist presiding.

In the special program for Miss Adams, entitled "Around the State in Rainbow Love," each officer presented the honoree with a flower. A song, with the same title as the program, was sung to her by the Misses Pam and Ralena Ursry.

It was reported Assembly 16 cleared \$208.00 through its sponsorship of the recent old-fashioned box supper, with thanks going to everyone who helped in any way to make the project such a wonderful and enjoyable success.

Plans were made to conduct a study session on four proficiency tests, followed by a slumber party, at the home of Mrs. Ray Ursry in Canal Point, Friday night, Mar. 26. Introduced as guest of honor was Mrs. Hortense Vann of Clewiston, district grand deputy, who was accompanied to the meeting by Mr. Vann.

Susan Todd was recently elected troop reporter. Members of Troop 38 are participating in the annual Girl Scout cookie sales. Anyone desiring a box of these delicious cookies—mint, peanut butter or assorted flavors—is asked to contact any member of the troop or troop leaders, Mrs. E. C. Johnson and Mrs. J. T. Boynton. There are still several boxes of cookies available at 50 cents a box.

### NURSERY TOUR

## Celery \$3.50-\$3.75, Corn \$4.00 While Beans Bring \$4.50

Scarcity of vegetables sure shoots the price sky high in the Lake Okeechobee Region farming area. That is the case this week when there is little corn to be harvested with the most of it coming from the east coast. However, the corn price is sticking around \$4.50 with some going as high as \$4.25.

The market is steady on celery with the price holding at \$3.50 to \$3.75 during the past ten days. Beans with a fair demand have been bringing top-prices with the supply scarce and the price around \$3.50 to \$4.00 for Harvesters. The very best sold this week for \$4.50 to \$5.00.

The supply of papaya and cucumbers was insufficient to warrant a price quote.

## Mounts To Retire After 35 Years

Thirty-five years doing one thing well—that's the record set by Marvin Umphrey Mounts—known as "Red" to his thousands of friends—as he leaves the office of county agent in Palm Beach county on April 1. He presented his resignation at the county commission meeting the first of the week and it was accepted with regard by all members.

Robert Prior of Broward county will succeed Mr. Mounts as head of the county agricultural department in Palm Beach county which has a full staff of workers and a handsome building in which to work—the Mounts Building on Military Trail.

Mounts' retirement does not take effect until April 15, but he will begin a two week leave of absence on the first. When he leaves office, he will have served, by his own count, "39 years, seven months, and 15 days." He was assistant agent for nearly five years before getting the top job.

The position of county agent started in 1916, and Palm Beach County had four of them before Mounts took over in 1929. He has held the job longer than anyone in any county of the state.

Mounts came to Palm Beach County Sept. 1, 1925. That was the middle of the Florida boom, but, the largest farm in the county measured 40 acres, and the agent's office was a two-man organization.

Mounts lives in West Palm Beach with his wife. His son, Marvin, Jr., is county solicitor.

## Next Thursday Set For Band Contest

The annual District 8 contest inspection for the 52-piece Pahokee High School Band, Concerto and sight reading performances only, will be held in the high school auditorium Thursday, March 25, starting at 10 a. m.

The judges will be Otto Krashaar, former director of Lake Wales and Miami Senior High School Bands now serving as conductor of bands at the University of Miami; Dr. Gale Sperry, director of bands at the University of South Florida, Tampa; and Paul Gustat, director of the Sebring High School Band.

The PHS Band, competing in Class CC, must receive a superior rating in both concert and sight reading phases of the district contest in order to be eligible to participate in the State Band Contest (southern division) at Miami, May 6-8. It was awarded a second-place, excellent rating in the marching phase of the District 8 contest last November.

A cordial invitation is extended to the public by Bandmaster Lampi to hear the contest performances by the band in the auditorium Thursday morning, March 25.

## Bryant Mill Will Grind Out Tuesday

The Bryant mill of the United States Sugar Corporation will close down next Tuesday, March 23, after completing another season which started last October. No official figures have been released by the sugar company in regard to the number of tons processed during the grinding season.

The freeze this season was one of the most damaging suffered by cane grown by the sugar company during the past twenty-odd years. Official records have not been made available to substantiate the story but old timers say that damage this season to USSC crops was the worst since 1941.

The Clewiston mill will grind out next Wednesday, March 24.

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{2}\%$  for the first year and a half; then a guaranteed  $4\frac{1}{4}\%$  each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn their new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my H Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your H Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $1\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

The committee, headed by Sen. John Mathews, Jr., of Jacksonville, agreed that the 1965 Legislature must look into the off-campus instruction program and make any necessary changes.

## How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

Early and mid-season control with Phosdrin hits insects hard, cleans them up fast.

Close-to-harvest insect control with Phosdrin gives you an unbeatable way to insure crop quality.

# Now, Phosdrin is an all-season insecticide

*-vegetable growers are using its  
hard-hitting control and fast disappearance in every spray.*

**The special effectiveness that has always made Phosdrin® Insecticide profitable for late-season use is now protecting vegetables throughout their growth. Here's why:**

THE 5- to 7-day spray schedules authorities now recommend have changed the role of Phosdrin. With its rapid speed of kill and near-perfect insect control, Phosdrin is extremely effective in the new short-interval spray schedules.

Also important in the new programs: Phosdrin is competitive on a cost per acre basis and its fast disappearance eliminates problems.

#### Insects and residues both vanish

A Phosdrin spray cleans up a broad spectrum of insects in a matter of minutes—aphids, mites, loopers, worms, almost all destructive pests attacking vegetables. Because control is

so thorough, insects can't build to damaging levels between sprays. And, of course, accidental drift to a nearby field also disappears rapidly.

Phosdrin makes it easy to avoid problems—all season and close to harvest. It's gone from the field a few hours after application.

#### Complete control is economical!

Phosdrin alone, protects lettuce, tomatoes, beans, peppers, celery, watermelons, eggplant and many other vegetables. There's no need to add another insecticide and raise costs... even if resistant insects are present. Phosdrin stops them too. And it offers a wide margin of safety to leaves and fruit of insecticide-sensitive crops like cucumbers and lettuce.

A little Phosdrin goes a long way. As little as  $\frac{1}{4}$  pound per acre is all it takes to end the damage of most vegetable insects. Dosage rates seldom exceed  $\frac{1}{2}$  pound per acre. Check

into costs and consider the overall protection Phosdrin gives you and your crop, and you'll see why it pays to use Phosdrin all season.

Phosdrin is available from your local insecticide dealer under many well-known brand names, or as a product of Shell. In liquid or dust.
